

What is a Bluebee Pal: An educational plush learning companion that can be combined with a wide range of apps with voice output via Bluetooth pairing. Bluebee Pals are your talking co-teacher and friend that can help you add excitement to the classroom and therapeutic settings. Bluebee Pals combine the traditional plush toy with state-of-the-art technology. Let's increase engagement and participation with Bluebee Pals!

What is the Bluebee Pals Project: Kayle Concepts donates Bluebee Pals to schools and organizations across the country for use in their classrooms and therapy sessions. Teachers, parent's and therapists are experiencing the impact of using Bluebee Pals as educational tools. Feedback from hundreds of special needs educators said our "talking tech buddies" encourage communication, language use, attentiveness, sensory processing, and positive behaviors. info@bluebeepals.com

The Ask: In return we are looking for feedback and testimonials about how Bluebee Pals is working for you. We can make this tool better with your insight and want to hear of your successes!

Getting Started:

- Turn on Bluebee Pal, Connect to Bluetooth, Charge with Cord Provided
- How it Works: <https://www.bluebeepals.com/#how-it-works>

Case Study Videos:

- Jessie Baker School: <https://www.bluebeepals.com/special-needs/>
- Princeton House Charter School: <https://www.bluebeepals.com/autism/>

Apps:

- **Bluebee Pals App** - great place to start for naming, requesting, vocabulary introduction, following directions, play, reward system using "interactive house" and games
- **Connect to Favorite Therapeutic and Educational Apps** – link to any app with voice output including those for text-to-speech, receptive/expressive language, academics, storytelling, music, comprehension, social skills/pragmatics...
- Connect to Music and Read Aloud Stories
- **Therapize!!!** - Use text-to-speech apps, AAC apps and therapy apps to make Bluebee "talk" and provide instructions, make conversations, ask questions and more
- **Teach!!!** - Incorporate Bluebee Pals into what you are already doing by connecting to educational app OR using a text-to-speech app to make Bluebee "speak/instruct", Bluebee Pals can and should enhance with what you are already doing in the classroom.
- **Let Students Take Control** – Empower students by connecting Bluebee to their AAC device, text-to-speech apps that allow them to make Bluebee speak during conversations and activities, as well as music and reading videos!
